## **URV FOUNDATION**

## TECHNOLOGY AND INNOVATION TRANSFER CENTER

### **ACTIVITY OVERVIEW 2019**

I am pleased to present the Activity Report for 2019 of the Technology and Innovation Transfer Center (CTTi) of the URV Foundation (FURV). Created in 1999 by the Rovira i Virgili University (URV), our main objective is to satisfy, from the university level, the technological and service needs generated by the productive sectors and by the administration, through the transfer of technology and innovation, the management of intellectual property, technology watch, entrepreneurship and supply infrastructure transfer (through CTTi Incubator and URV Spaces).

This year, the overall contracting volume was € 5,046,021. This amount includes both the contracts of companies and entities, the grants and donations received and the

transfer of spaces that the CTTi manages on behalf of the URV.

The Valuation Unit has managed 10 priority patent applications, 6 license agreements, created 2 Spin-offs and recognized 3 Start-ups. All these figures represent a growth in the activity developed, which has been possible thanks to the aid received in 2018 by the European Regional Development Fund (ERDF), together with the Directorate-General for Research, supporting the activities developed by the CTTi to promote the transfer of technology and innovation and the valorisation and commercialization of technologies.

During this year, and for the second time, we have again called for grants for the valorisation of knowledge, Research to Business (R2B). In the call, which has € 80,000 and is co-financed with FEDER aid, 14 proposals were submitted, of which 7 were funded.

One point I would like to highlight is our relationship with the Clusters, in which we participate on behalf of the URV. Last year we actively participated in 3: the INNOVI Cluster of the wine sector, the Food & Nutrition Cluster of the health and nutrition sector and the TIC Cluster Southern Catalonia of the information and communication technologies sector of Reus and the Camp of Tarragona

Also worth mentioning is the FURV-URV Emprèn Talent Program that we started last year together with the Chair of Entrepreneurs-

hip and Business Creation at the URV, which aims to link the business fabric of the Territory with talent and the technologies that emerge at the URV.

Finally, highlight, on the one hand, the consolidation and continuous improvement in the deployment of the criminal liability prevention plan, Corporate Compliance, in the FURV. Specifically, we have activated the communication and reporting channels, tools necessary to continue progressing in this area, an effort has been made to expand and improve our code of ethics and conduct as well as monitoring and assessment of the impact of the measures applied in previous years. On the other hand, in response to the specific implementation of the transparency law, a step has been taken to generate new documents for measuring the social impact and governance of the FURV available on our portal.

I want to thank everyone who has participated in the activities and the results that are presented: employers, researchers, companies, entities and the entire CTTi team.

Tecnologia i Innovació

**Lourdes Jané**URV Foundation Director

# CONTRACTING OF TECHNOLOGY AND KNOWLEDGE TRANSFER

#### **EVOLUTION OF CONTRACTING AMOUNT (k€)**

#### **CONTRACTED AMOUNT BY TYPE OF PROJECT** (k€)

\*Others - Sale of wine, scientific divulgation,...

#### DISTRIBUTION OF NUMBER OF CONTRACTS BY AMOUNT $(\in)$

<sup>\*</sup> Collaboration agreements without economic amount.

#### **CONTRACTING AMOUNT BY GEOGRAPHICAL ORIGIN**

#### **GRANTS (I)**

In 2019 a total of **28 grants** were received from private companies and public administrations, with a total contracted amount of **835 thousand euros** among which we can highlight the following ones:

- ARP048/19/00093-CARACTERITZACIÓ DE LES BIOCENOSIS DE FANEROGAMES MARINES, granted by the Department of Agriculture Livestock and Fisheries of the Catalan Government to the TECNATOX center.
- SAFETY ASSESSMENT OF MICRO AND NANOPLASTICS (ref. TECSPR18-1-0080), granted to the TECNATOX centre, within the framework of the Tecniospring Plus call.
- LLAVOR-COLORECTAL CANCER MARKERS FOR THE SELECTION AND OPTIMIZA-TION OF THE APPROPRIATE TREATMENTS, concedit per part de l'Agència de Gestió d'Ajuts Universitaris i de Recerca (AGAUR).

#### **CONTRACTED AMOUNT BY TYPE OF ENTITY (k€)**

\*Others - Individuals, associations, cooperatives,...

#### **GRANTS (II)**

- LLAVOR-ONADA: ONLINE AUTOMATED DATA ANALYTICS SERVICE, granted by the Agency for the Management of University and Research Grants (AGAUR).
- RECERCA SOBRE EL DOLOR INFANTIL, granted by the FUNDACIÓN BANCARIA CAIXA D'ESTALVIS I PENSIONS DE BARCELONA.
- EDUCA JUJOL, concedit per l'Obra Social de LA CAIXA.
- SEMANA EUROPEA DEL CODIGO URV 2019: ACTITUD STEM, granted by the FUNDACION ESPAÑOLA PARA LA CIENCIA Y LA TECNOLOGIA (FECYT) to URV Divulga.
- Projects financed by the Diputació de Tarragona
  - Tarragona Region of Knowledge Office
  - Reprint of the Port Aventura book
  - Coodtur. Knowledge Hub in Tourism, Cooperation and Development
  - Journalism in the Tarragona region
  - Communicating Science in Southern Catalonia
  - Activities of the Region of Knowledge Chair
  - Chair for the Promotion of Entrepreneurship and the Creation of Companies
  - Grant for the University Chair Company for the Promotion of Business Innovation

Call for R2B2019 grants financed 50% with funds from the URV and 50% with funds from the FEDER Operational Program of Catalonia 2014-2020 within the framework of order EMC / 348/2016 of 27 December from the European Development Fund Regional (FEDER) for the realization of projects of the units of valorisation and transfer of knowledge of the universities of Catalonia. The following projects have been approved in the 2019 call:

- R2B2019/01 Kallipolis project, a trip to the Iberian times through extended reality (RE).
- R2B2019/02 Chemical tools for the development of new drugs.
- R2B2019/03 Integration of innovative techniques to measure the amount of micro-nanoplastic in environmental samples (IN-NOVAPLASTICS).
- R2B2019/04 ALL\_DX: Advanced diagnostic and prognostic kit for the medical treatment of garlic-type childhood cancer.
- R2B2019/11 Treatment of obesity by modifying intestinal bacteria with a probiotic.
- R2B2019/12 Use of a portable infrared and ram spectroscopy spectrometer combined with multivariate analysis to discriminate microorganisms.
- R2B2019/14 WINESENS: Innovative chemical sensors, artificial intelligence and cloud computing in the wine industry.

## THE URV VALORIZATION AND COMMERCIALIZATION UNIT

The Technology Transfer and Innovation Center is the **URV Valorization and Commercialization Unit** (**UV-URV**) and is part of the Network of Valorization Units of ACCIÓ. The UV-URV commercializes the industrial and intellectual property of the URV by protecting and valorizing its assets so that they can be licensed or spin-offs created.

#### **INTELLECTUAL PROPERTY (IP)**

Since its creation in 2000, the CTTi manages the protection of knowledge derived from the URV's research. The Industrial and Intellectual Property area (IP) is responsible for presenting and monitoring patent applications to the Spanish Patent and Trademark Office (OEPM), the European Patent Office (EPO) and for filing PCT international protection applications, deposits to the Benelux Office for Intellectual Property (BOIP) of works and computer programs, and other related actions, such as the management of license agreements and the monitoring of license returns.

Its main objectives are to sensitize the URV community, to monitor RDI activities and to identify those results that can be protected and transferred to society through licensing or the creation of a spin-off.

#### **ENTREPRENEURSHIP**

The Spin-offs created with the participation of the URV in 2019 are the companies: **UP2SMART INNOVATIVE TECHNOLOGICAL SOLUTIONS, SL**, provider of specialized services in the area of computer vision and **JUNGLE VENTURES, SL**, company that uses a technological platform with a module Smart Toilet (STM) and that controls the dehydration of people in order to improve their health.

The new Start-ups recognized by the URV are the companies: **TREEMATERNITY, SL**, which offers consulting services and advice on the quality of care for women during childbirth and has also designed Belty, a new belt for the delivery room completely innovative; **SEO ALIVE, SL**, an agency specialized in web positioning through SEO and in the world of online marketing and **EDUCATION TRAINERS, SL**, a cooperative of educational services that is dedicated to the management of educational, recreational, sports and cultural projects with the purpose of responding to current educational demands.

#### **URV TECHNOLOGY AND KNOWLEDGE**

The URV's technology and knowledge is made available to society through the INNOGET platform. The main objective of this platform is to nationally and internationally disseminate the supply of technology generated by companies and research organizations and connect it with the demand for RDI technologies and services.

**More information**: https://fundacio-urv-technologytransfer.innoget.com

The skills and services offered by the URV research groups can be found in the Catalogue of the Scientific and Technical Services of the URV, which can be consulted on the FURV website.

More information: www.fundacio.urv.cat/transfer

#### **TECNIO FACILITATOR ORGANIZATION**

During 2019, the CTTi has been accredited as a TECNIO facilitator. This distinction identifies the CTTi as an organization in which companies can find new technologies for their new product and process development needs, whether through the acquisition or exploitation of patents, the contracting of RDI projects or contact with spin-off companies.

# ACTIVITIES

#### BUSINESS INCUBATOR AND ASSIGNMENT OF FACILITIES

The Technology and Innovation Transfer Center has offices and laboratories to house the spin-offs that are generated by the URV and those companies that wish to outsource RDI activities and need demonstration facilities and pilot plants. The laboratories are designed to offer maximum flexibility and aim to satisfy a wide range of needs.

The offices are fully equipped and have as access to caretakers, meeting rooms, photocopiers and printers, and space for presentations.

There are also two multimedia rooms and an auditorium equipped for courses, seminars, commercial presentations and other activities.

More information: www.fundacio.urv.cat/ca/fundacio/reserva-aules/index/

#### PARTICIPATION IN CLUSTERS

#### INNOVI

Catalan wine cluster that groups companies in the wine and auxiliary sector, to improve the competitiveness of companies in Catalonia through the development of innovation projects in cooperation.

#### **FOOD & NUTRITION**

Cluster that represents the first joint collaboration of companies in the health and nutrition sector in Catalonia and the rest of Spain, with the aim of promoting research and innovation projects.

#### **TIC CATALUNYA SUD**

Cluster of the TIC sector of Reus and the Camp de Tarragona.

#### NETWORK PARTICIPATION

#### RedOTRI

Research Results Transfer Offices Network

#### **Valorization Unit Network**

ACCIÓ - Generalitat de Catalunya

### COMMUNICATION AND DISSEMINATION ACTIVITIES

The CTTi Newsletter is published and emailed monthly. It includes the calls for funding, proposals and requests for business projects, announcements of fairs and technology days, as well as any other activity, regulations, etc. that may be of interest.

The subscription can be made from the Newsletter itself. Wore information: www.fundacio.urv.cat/centre\_de\_transferencia/publicacions/

#### QUALITY

In May 2019, the CTTi successfully passed the audit of the Quality Management System in accordance with ISO 9001:2015. The benefits of implementing a Quality Management System are as follows:

- · Plan, organize, systematize and control the activities of the CTTi.
- Establish goals and milestones that help control the resources associated with these activities.
- Provide added value through the management system facilitating the transfer of technology and knowledge.
- To improve the business image of the CTTi and its competitiveness in the face of the socio-economic fabric as a whole. • Ensure the transparency of technical and economic management in the public administration and other bodies.

Every year the CTTi collects the opinions of internal (PDI) and external customers (companies and other entities), as well as its own staff, so that it can continue to guarantee an optimal management service that responds to the demands and expectations of clients and continuously improves the services it offers.

Contact address: qualitat.ctti@fundacio.urv.cat

### TRANSPARENCY

Following the approval of Law 19/2013 on transparency, access to public information and good governance, of December 9, and Law 19/2014 on Transparency, Access to Public Information and Good Government, of December 29, in September 2015 the FURV launched its Transparency Portal. The content of the portal is updated periodically to comply with current legislation.

More information: www.fundacio.urv.cat/furv/portal-de-transparencia/

#### **LOPD** (Law on Personal Data Protection)

The CTTi complies with the regulations for the protection of personal data in accordance with the provisions of Organic Law 3/2018, of 5 December, on the Protection of Personal Data and the guarantee of digital rights and its implementing regulations and EU Regulations 2016/679 of the European Parliament and of the Council of 27th April 2016 on the protection of individuals with regard to the processing of personal data and on the free movement of such data.

More information: www.fundacio.urv.cat/nota-legal/

#### CORPORATE COMPLIANCE

During 2019, the FURV has consolidated the crime prevention plan through a regulatory compliance model (Corporate Compliance Program), the activation of a complaints channel, to comply with transparency with current legislation, and the commissioning of a communication channel, a broadcasting channel by FURV departments where the crimes that apply to each functional area and workplace as well as regulatory or procedural changes are periodically reported.
